*LUBRICATION SYSTEMS AND PRODUCTS*

**04**

*PNEUMATIC SYSTEMS AND REPAIRS*

**05**

*HEAVY VEHICLE SERVICING & REPAIRS*

**06**

*DIRECT SALES & SUPPLY OF SPARE PARTS*

# INTRODUCTION

## *WELCOME TO CQ GROUP*

### Company Overview

CQ Group, trading as Central Queensland Hydraulics, is a locally owned and operated business based in Mackay. Proudly serving as a trusted partner across Central Queensland since the 1990s, we specialise in the engineering design, supply, fabrication, installation, commissioning, maintenance, and repair of hydraulic equipment, systems, and components.

With decades of proven industry experience, CQ Group delivers high-performance solutions tailored to demanding operational environments across a wide range of sectors—including mining, sugar, construction, marine, transport, and general industrial markets.

Operating from a fully equipped office and workshop in Mackay, we are strategically positioned to support clients throughout the Central Queensland region. Our commitment to quality, safety, and innovation underpins every project we undertake, ensuring consistent reliability, exceptional performance, and long-term value for our clients.

# OUR CORE VALUES AT CQ GROUP

At CQ Group, our company culture is grounded in four key pillars that guide every project, partnership, and decision:

## ►► RESPECT

We value every individual and stakeholder, promoting inclusivity, courtesy, and professionalism across all levels of our organisation and client engagements.

## ►► INTEGRITY

We conduct our business with honesty and ethics, ensuring trust, accountability, and transparency in every interaction.

## ►► COLLABORATION

We foster a collaborative environment — both internally among teams and externally with clients and partners — to achieve shared goals and exceptional outcomes.

## ►► INNOVATION

We embrace new ideas and evolving technologies, delivering smarter systems, creative problem-solving, and continuous improvement to meet the real-world challenges of our industry.

# MISSION STATEMENT

“To be the trusted leader in delivering innovative, reliable, and sustainable industrial solutions that power Central Queensland’s most critical industries.”

- » **ENGINEERING EXCELLENCE**
- » **RAPID-RESPONSE SERVICE DELIVERY**
- » **STRONG CLIENT PARTNERSHIPS**
- » **COMMITMENT TO CONTINUOUS IMPROVEMENT AND SAFETY**

# ONSITE LABOUR FOR HYDRAULIC AND LUBRICATION MAINTENANCE

- » **Industry-Trained Personnel** – Our technicians are highly skilled and experienced in hydraulic and lubrication systems across multiple industries.
- » **Fully Equipped Service Vehicles** – Our mobile units carry the tools, parts, and diagnostic equipment needed to complete most jobs on-site.
- » **Rapid Response** – We offer prompt onsite service to reduce downtime and keep your operations running smoothly.
- » **Safety & Compliance Focused** – All work is performed to meet strict safety and OEM standards, ensuring reliability and compliance every time

# **HYDRAULIC CYLINDER REPAIRS**

CQ Group provides expert repair, servicing, and reconditioning of hydraulic cylinders for industrial, mining, agricultural, and mobile equipment applications. Our experienced technicians and fully equipped workshop ensure fast, high-quality service tailored to your operational requirements.

- » **COMPLETE CYLINDER OVERHAUL**
- » **CUSTOM FABRICATION & MODIFICATIONS**
- » **TESTING & QUALITY CONTROL**

# PUMP & MOTOR TESTING

CQ Group offers precision hydraulic pump and motor performance testing using a fully equipped 55kW test bench. This facility allows us to test, validate, and troubleshoot a wide range of hydraulic pumps under real-world conditions before deployment or after repair.

►► 55 KW

►► 150 LPM

►► 350 BAR

►► OPEN & CLOSE LOOP TESTING

# TOOLING AUDIT & REPAIRS

CQ Group has the trained and experienced personnel to carry out comprehensive hydraulic tooling audits.

In addition, we can perform minor on-site repairs. For major overhauls, tools are returned to our workshop for a full OEM-compliant rebuild, ensuring quality, safety, and performance standards are met.

# LUBRICATION EXPERTS

---

CQ Group has extensive experience in delivering and developing innovative lubrication solutions across a range of industries. With access to trusted suppliers including Graco, Lincoln, Alemlube we are also proud to operate as an authorised Groeneveld distributor.

## CQ GROUP IN-HOUSE DESIGNED LUBRICATION GREASER CABINET

- Provide centralized lubrication control for improved maintenance efficiency
- Enhance equipment life through consistent and accurate grease delivery
- Withstand harsh industrial environments with a heavy-duty, corrosion-resistant build
- Offer easy access for monitoring and servicing, ensuring minimal downtime

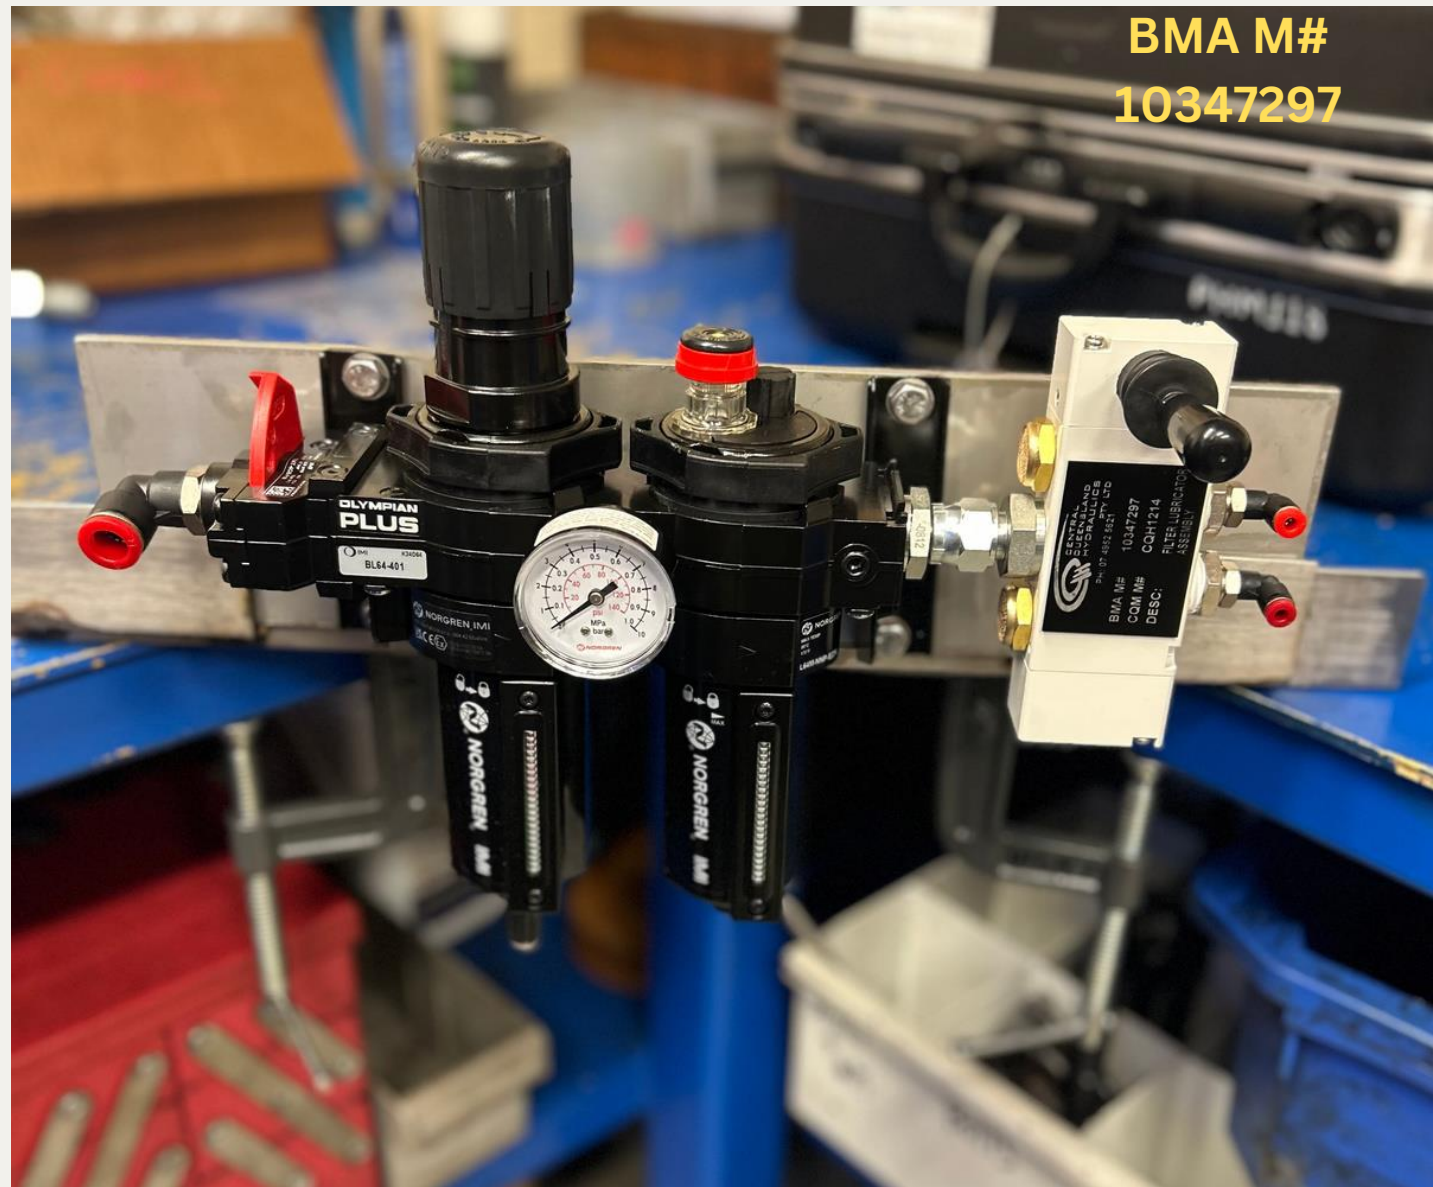

# PNEUMATIC SYSTEM AND REPAIRS

At CQ Group, we also specialize in the design, supply, and servicing of pneumatic systems for industrial applications. Our experienced technicians provide:

- » DESIGN AND INSTALLATION
- » MAINTENANCE AND REPAIRS
- » NORGREN DISTRIBUTOR
- » LEAK DETECTION AND EFFICIENCY TESTING
- » SUPPLY OF PNEUMATIC COMPONENTS
- » SUPPLY OF PNEUMATIC COMPONENTS

**BMA M#

## In-House Designed Air Valve Regulator Assemblies

CQ Group offers custom in-house designed air valve regulator assemblies—a highly versatile and reliable solution for powering multiple pneumatic systems on site. These compact, durable units are ideal for controlling:

- Grease pumps
- Hose reels
- Pneumatic cylinder circuits
- And other air-operated equipment

Regularly supplied to major clients including BMA (BMA M# 10347297), these assemblies provide a convenient, plug-and-play option for managing air distribution across your operations.

Designed for harsh industrial environments, they enhance efficiency, simplify maintenance, and reduce setup time for mobile and fixed applications.

# HEAVY VEHICLE SERVICING & REPAIRS

CQ Group offers comprehensive heavy vehicle servicing for commercial fleets, mine-site support trucks, and transport vehicles. Our fully equipped workshop and expert technicians deliver fast, reliable service tailored to the demanding conditions of Central Queensland industries.

Our Heavy Vehicle Services Include:

- **Full mechanical servicing & inspections**
- **Brake, suspension, and drivetrain repairs**
- **Hydraulic system maintenance & diagnostics**
- **PTO setups, pumps, and cylinder servicing**
- **Pre-start checks and compliance reporting**
- **Air conditioning and electrical repairs**

Whether you operate a single truck or a full fleet, CQ Group provides end-to-end service solutions that minimise downtime and maximise reliability.

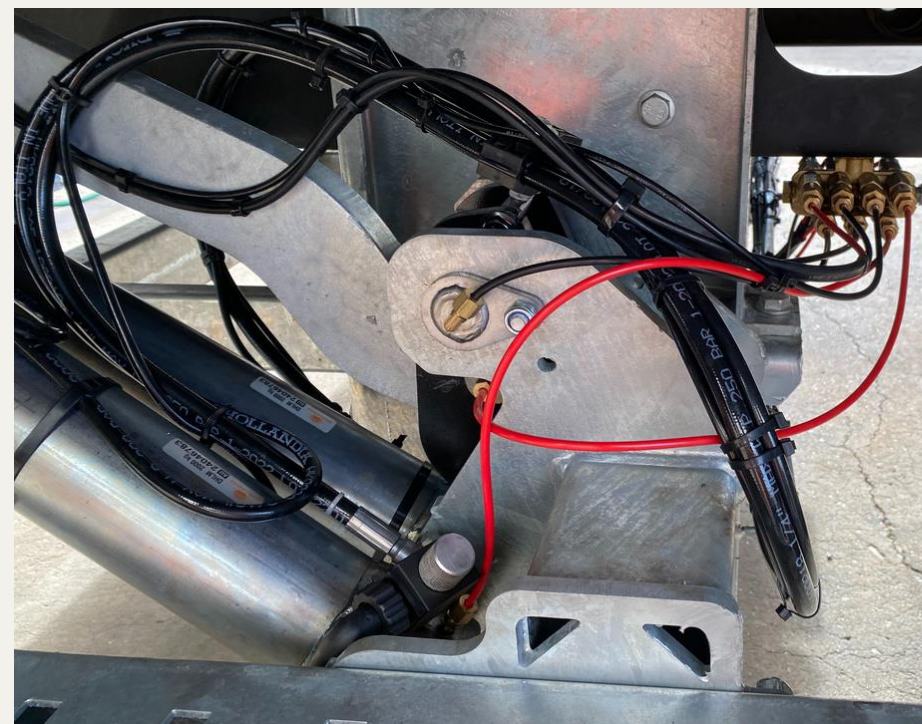

# DISTRIBUTOR OF GROENEVELD

As we expand into the transport sector, we're proud to announce that CQ Group has been given the opportunity to become the sole distributor of Groeneveld lubrication systems for Mackay and the surrounding region. We've already completed several successful installations — see example below:

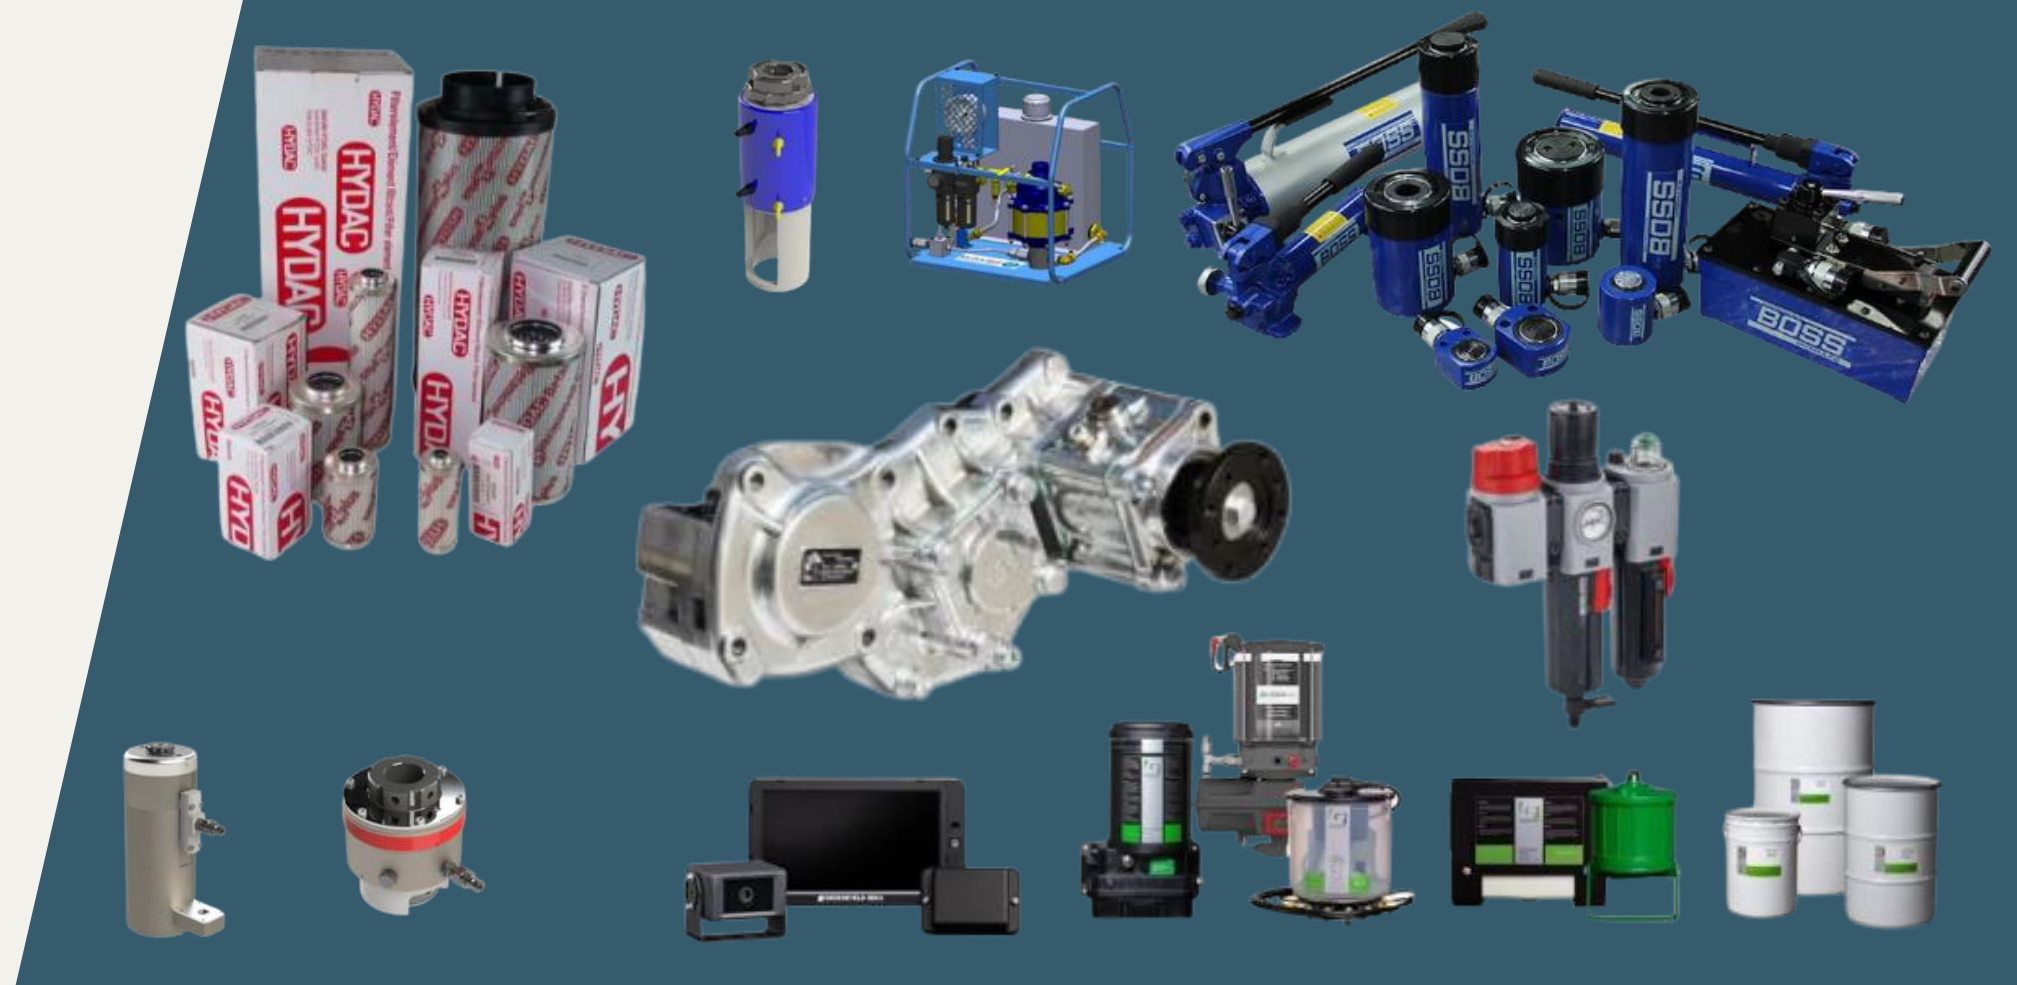

One of our recent projects includes a complete tailgate installation fitted with an automatic lubrication system. This setup ensures consistent performance, reduced maintenance downtime, and improved equipment longevity — ideal for heavy transport operations.

## Sales & Supply of Spare Parts

**CQ Group offers a comprehensive range of spare parts and equipment to support the mining, engineering, and trucking industries. As an authorised distributor and supplier, we work closely with a network of highly recommended manufacturers, maintaining strong and trusted partnerships to ensure quality and reliability.**

**DRIVING INNOVATION**
